Upcoming Information Technology graduate with professional experience as a Full-Stack Developer Intern at La Rose Noire. Experienced in building responsive UI/UX and robust APIs using modern tools like React, TypeScript, Node.js, and PostgreSQL. A proactive problem-solver with a proven track record of delivering maintainable, high-quality software solutions in both corporate and collaborative environments.

EDUCATION

Pampanga State University Lubao, Pampanga
Bachelor of Science in Information Technology September 2026

EXPERIENCE

Full-Stack Developer Intern | La Rose Noire, Philippines Inc. February 2026 - May 2026
Responsible for designing, engineering, testing, and deploying internal softwares utilizing PHP, JavaScript, and Microsoft SQL Server to streamline multi-departmental operations. Handling development from frontend, backend, to database schema structure.

- **ITMS:** Engineered 'ITMS', a centralized inventory platform that automated lifecycle tracking for over 400 hardware assets and consumables, reducing monthly manual auditing time by 50%.
- **A.C.T.S.:** Engineered an email-to-ticket tracking system (A.C.T.S.) to audit response times for forwarded Sales emails, establishing a data-driven baseline for how quickly client concerns are acknowledged.

PROJECTS

Invique: Event and Invitation Management for Multiple Events 2026

- Architected 'Invique', a full-stack event and invitation management platform using React, Node.js, and PostgreSQL.
- Designed a robust RESTful API to handle complex backend CRUD operations for multi-event scaling, ensuring secure user authentication and data privacy.
- Optimized PostgreSQL relational schemas and indexing for invitation tracking, maintaining data integrity and keeping query response times under 150ms.

CERTIFICATIONS

The Complete Full-Stack Web Development Bootcamp May 2026
Issued by Udemy
https://www.udemy.com/certificate/UC-0364cd62-8bac-4ee5-bfed-3daacb679542/

SKILLS

Technical Skills

- **Languages:** JavaScript, TypeScript, Python, PHP, SQL, Java
- **Frameworks & Tools:** React, React Native, Tailwind, Nativewind, Git, Github, Postman, Prisma, Wordpress, Flutterflow, Frappe

Soft Skills

- **Databases & Cloud:** MySQL, PostgreSQL, Microsoft SQL Server, MongoDB, Firebase
- **Interpersonal:** Stakeholder Communication, Collaborative Leadership, Constructive Feedback Loop
- **Execution:** Technical Project Management, Maintainability Mindset, Process Optimization
- **Cognitive:** System Thinking, Design Thinking, Analytical Troubleshooting
